

TOMÁŠ PILAŘ

21 St Bartholomew's Court ◇ Cambridge, CB5 8JB, United Kingdom

+44 · 7531 · 784896 ◇ sir.integra@gmail.com

A friendly, competent and dedicated software engineer with experience in UEFI and Linux kernel drivers. Prefers to work with a good team, designing and delivering well crafted products. Spare time is filled with friends playing board games or live-action games, or learning more about the technologies it works with.

– "Rare Depictions of Homo Programmeris Systemus"

EMPLOYMENT HISTORY

Xilinx Inc.

Staff Software Engineer

July 2019 - Present
Cambridge, UK

- UEFI Technical Lead and Linux Driver developer
- Full ownership of the UEFI Project at Solarflare including design, development, test and CI
- Mentored junior member of the UEFI team

Solarflare Communications

Senior Software Engineer

June 2017 - July 2019
Cambridge, UK

- UEFI Driver and Linux Driver Developer
- Developed industry contacts facilitating higher quality of the UEFI products in-house.
- Tutored junior members of other teams to disseminate institutional knowledge
- Collaborated cross-team to design specifications, implement features, develop OEM products, and debug complex issues.

Solarflare Communications

Software Engineer

June 2014 - June 2017
Cambridge, UK

- Test Automation Engineer and Test Developer, Linux Driver Developer
- Designed and implemented test cases for multiple products using asynchronous Python framework based on twisted
- Pioneered in-house CI frameworks streamlining the development process
- Thoroughly benchmarked the linux kernel driver using a custom-built tool
- Created in-house test harness for product web-UI using the Selenium framework

TECHNICAL COMPETENCIES

Systems Programming (Linux & UEFI)

C (5 years)

Test Development and Automation

Python (7 years), Jenkins (2 years)

Version Control

Git and Mercurial (5 years)

Data Analysis

C++ and ROOT (2 years)

Database Design & Administration

T-SQL, MySQL, mariaDB

OTHER SKILLS

Languages

Slovak & Czech (Native), English (Bilingual), French (Intermediate)

Management Software

JIRA, Bugzilla, Reviewboard, Slack

Methodology

Agile development and Continuous Integration

Public Speaking

Experience chairing meetings (up to ~ 40 people)

POSITIONS OF RESPONSIBILITY

GAUSS Monte Carlo Simulation Group Decay Files repository manager	October 2011 - June 2014 LHCb Collaboration, CERN
EvtGen Development Group Development and technical support	October 2010 - June 2014 University of Warwick, UK
LHCb UK Student Group Convener	June 2012 - December 2012 LHCb Collaboration, CERN
University of Warwick Computing Society Co-President	February 2007 - January 2009 University of Warwick, UK
Warwick Conferences Lead Conference Assistant	June 2008 - September 2009 Warwick Conferences, Coventry

EDUCATION

University of Warwick, UK PhD in Particle Physics Thesis on analysing data from LHCb to extract Standard Model parameters Transferrable Doctoral Skills Course Long Term Attachment in CERN, Geneva (14 months)	October 2010 - June 2014
University of Warwick, UK MMathPhys (2.1), Thesis in Particle Physics	October 2006 - June 2010
BASG Milana Hodžu, Sučany, Slovak Republic A-level equivalent (AAAABB)	October 2001 - June 2006

INTERESTS AND HOBBIES

Professional

Low-level programming (system software or firmware), solving complex problems
Designing robust systems that last, leaving code in better shape, bringing hardware to life
Imparting institutional knowledge

Personal

Games (board, computer, card, and live action), literature, theatre, musicals, travelling, swing dancing

COMMUNICATIONS

UEFI Plugfest Regular attendee on behalf of Solarflare Communications	Autumn 2016 - <i>Current</i>
Charm mixing in $D^0 \rightarrow K_S \pi \pi$ at LHCb https://cds.cern.ch/record/2008671?ln=en	June 2014 <i>University of Warwick</i>
Model-independent measurement of mixing parameters in $D^0 \rightarrow K_S \pi \pi$ decays http://link.springer.com/article/10.1007%2FJHEP04%282016%29033	April 2016 <i>Journal of High Energy Physics</i>
Charm mixing and CP violation at LHCb <i>Large Hadron Collider Physics Conference</i>	May 2013 <i>Barcelona, Spain</i>
Measuring charm mixing using a model-independent technique in $D^0 \rightarrow K_S hh$ <i>Institute of Physics HEP Conference</i>	April 2013 <i>Liverpool, UK</i>
